

# We accelerate factories through robotics.

DIH<sup>2</sup> believes in the power of robotics to transform the agility of manufacturing in Small and Medium-sized Enterprises (SMEs) and drive economic growth across the European Union. Our role is to facilitate the connections that will enable agile production in factories where speed and versatility are essential to satisfy customer demand.

The ambition of the project is to:

- Improve the cost-effectiveness of advanced robotics solutions.
- Drive growth of the European manufacturing robotics market.
- Generate innovation that maximises productivity and optimises agility in over 300,000 manufacturing SMEs and Mid-Caps across the European Union.

DIH<sup>2</sup> is a network of 26 European Digital Innovation Hubs (DIHs). Our objective is to grow this network to over 170 DIHs by 2022.

## Sponsorship benefits:

### High visibility for your company across Europe

- Reach more than 300,000 SMEs across 26 European countries.
- Showcase your products and services through our events, RAMP - The Robotics and Automation MarketPlace and our European-wide network of DIHs

### Reach new customers

- Access potential customers that will receive financial support up to €248,000 to trial and adopt your products and services.
- Receive insightful customer experience feedback to enhance your product or service offering.

### Shape the future of European robotics

- Influence European Commission decision makers by taking an active role to support the European robotics industry.
- Influence European robotics standardisation.

## Sponsorship opportunities:

### Over 50 digital events

Take part in webinars reaching hundreds of manufacturing SMEs and share opportunities related to robotic solution integration with the appropriate financing.

### Over 30 large events

Attend large events with over 5,000 participants. Make the most of your participation by creating synergies with the DIH<sup>2</sup> presence at events.

### Over 100 Robot Days

Join organised robotics events across 26 European countries to reach potential customers and showcase your products and services.

### Prototype with customers

Participate in co-building workshops to promote your products and services in virtual and live showrooms across 26 European countries. Prototype your solutions through partnership with SMEs who will benefit from the DIH<sup>2</sup> technology transfer programme.

Become a sponsor before **01.09.2019** and benefit from the massive potential of the DIH<sup>2</sup> project. Contact **Emira Vodo** for more information:
